WHY CHOOSE US?

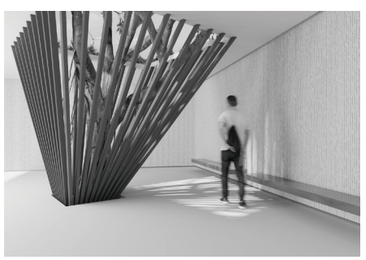

As a leading manufacturer of composite building materials in China, GREENZONE® Group was founded in 1999. Nowadays, GREENZONE® is out of the ordinary, which owns the advanced wood, stone, aluminium, and plastic compounding technology and obtains awards for market leadership and innovation from the Chamber of Commerce and Chinese government.

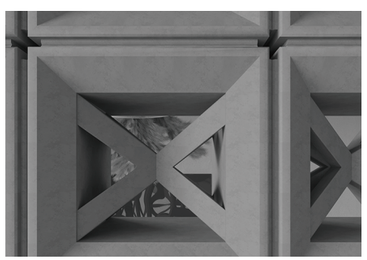

The products apply to many government projects, including CBD buildings, public buildings, malls, offices, restaurants, villa&houses. On the other hand, we have been able to supply composite products with extremely high and stable quality to many cooperation in Italy, the UK, France, Spain, Germany, Canada, the United States, Columbia, Mexico, Brazil, Japan, Singapore, Saudi, UAE, Thailand, India, Australia, and other countries.

ABOUT GREENZONE

ORIGINAL INNOVATION R&D TEAM

GREENZONE® has professional teams of design and R&D from Europe, Japan, and Singapore, which awarded more than 260 design patents. The team members insist on making original products and keep the leading technological innovation of the process all the time.

EFFICIENT PRODUCTION CAPACITY

GREENZONE's capacity exceeds 300,000㎡/month with the efforts of 136 production lines, including indoor and outdoor products. We can achieve faster delivery for the most professional clients.

A COMPLETE PRODUCT SYSTEM

GREENZONE® has more than 600 kinds of new composite profiles applied in many fields such as decking, fencing, wall cladding, decoration panel,3D elements, ceiling, timber, and outdoor furniture. We can provide all the accessories as well as a complete installation guide. The installation will be so easy that you can even do it yourself.

QUALITY PRODUCTS & SERVICES

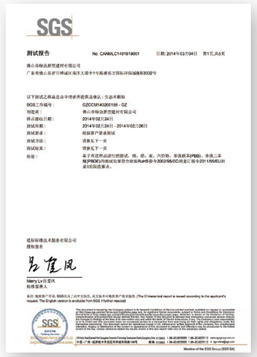

Driven by the belief that "Green material, Quality Space", the GREENZONE® group continues to pursue more environmental-friendly and better quality products, continuously improve the professional ability of the team, and provide better service to customers.

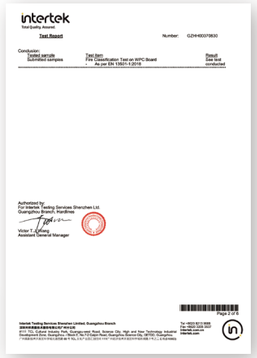

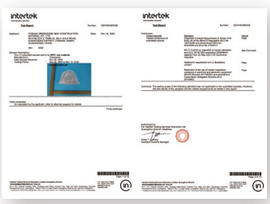

INNOVATION & HONOR

Over the years, GREENZONE® got more than 200 patents for innovative design and utility models, and had been awarded as: ·The leading Chinese New green composite manufacturer who got the Singapore Green Certificate and also FSC and CE certification of Europe;
·Top10 Eco-Green Material Manufacturer of China;
·ISO154025 enviromental protection enterprise;
·Excellent environmental friendly brand of China;
·FSC Certification Manufacture company;
·The Recommended Brand by designers and architects.

PRODUCTION PROCESS

GREENZONE® eco-wood is made of wood powder, resin and additive by thoroughly mixed in the pelletizer and extruded from the compression molding.

01
Raw materials are placed into the miser and mixed evenly.

02
Pellets are then extruded out from the pelletizer at a formulated temperature.

03
Through formulations, different pellets are placed into the mixer and mixed evenly.

04
Profile will be then extruded out through a mold.

05
After cooling down, profiles are solidified, forming the shape as from the mold.

06
Profiles are then cut at specific standard length or customized according to customer requirement.

07
Package & Deliver.

MODERN LUXURY WITH A FUTURISTIC FEEL.

Greenzone Master Metal Series, through leading technology and design, forms unique and textured decorative surface materials.

银色圈纹 Blossom Silver

LPMG10001
砂面雾银 Matte silver

Organic curves break the rigid boundaries of the architectural space, presenting a pioneering visual experience.

LPMG10010
銀色直纹 Laser Silver

Perfectly solve the pain point of distortion of stainless steel finished surface, realize flexible use such as on-site cutting, folding and carving, and achieve worry-free unification of copy shops.

The coldness of metal is perfectly combined with modern space, and you can feel the precipitation of time and the extension of senses in every detail.
